Sage 50 Accounts

What's new guide

What's new in Sage 50 Accounts?

The latest version of Sage 50 Accounts includes major new functionality in the features you use on a daily basis as well as access to a growing catalogue of brand-new add-ons, so you can truly customise your accounting software to the needs of your business.

Take a look at our new features at a glance:

Bank Feeds powered by Yodlee*

Balancing the books is an integral part of managing accounts but it doesn't need to be a manual or tedious process. **The new Bank Feeds feature is exclusive** to the latest version of Sage 50 Accounts and makes reconciling your accounts and bank balances simple and error free.

Match payments and receipts **quickly and easily,** discard personal transactions, and spend less time on time-consuming data entry, giving you a **real-time view** of your cash position at a glance.

*Only available with Sage Cover Extra and subscription contracts

Get paid faster with Invoice Payments*

The biggest challenge most businesses face is **keeping a healthy cash flow.** The best way to tackle this is to get paid faster by your customers and reduce the likelihood of invoices being unpaid.

With Invoice Payments from Sage Pay you can do just that. By adding **Pay Now buttons** onto your invoices, your customers will be able to pay you instantly, easily and securely. You'll also be able to **accept card payments over the phone** from directly within Sage 50 Accounts. All payments you take are **automatically posted** into your accounts, saving lots of time.

Businesses like yours who use Invoice Payments get paid at least twice as fast as those that don't. There's no additional monthly charge…you'll simply pay a **flat fee of 2.5%** for the value of each payment you take.

Improved error correction

Everybody makes mistakes and there's nothing more frustrating than realising that you need to delete and start something again. But the latest functionality within Sage 50 Accounts means that is **a thing of the past.**

You can now **quickly and easily** edit journals, un-allocate credits and payments from an incorrect invoice and track which users have edited transactions. Meaning it's **never been easier** to keep your accounts accurate and up-to-date.

Plus, you can feel comfortable knowing that you can quickly review what's been edited, by who and when.

Surfacing information

Getting the right information when you need it is crucial to running your business. The latest version of Sage 50 Accounts means it's **never been easier** to analyse data without the need to source it from various parts of the software or create workarounds. New columns and fields mean **more efficient data analysis** and reduced frustration.

Drill down on aged debtors and creditors

Get more control of who owes you money and who you owe money to, without the need to move in and out of different screens. A more streamlined process makes it easier to get insight into your cash flow at the click of a button.

Streamlined dialogue boxes

Streamlined dialogue boxes puts the power of Sage at your fingertips. It's now easier than ever for you to **find the information you need quickly,** and work on it effectively, without having to learn or remember what to do. It's clearer, simpler and more intuitive than ever before.

User interface consistency

A **streamlined and organised workspace** is important to everyone and that shouldn't stop at your accounts software. The latest developments to Sage 50 Accounts mean you can **customise exactly what you want to see** when using the programme and that will be remembered when you log out. So, no more spending time re-setting your display to fit how you work.

How can you enhance the power of Sage 50 Accounts?

The latest version of Sage 50 Accounts is developed to **work seamlessly with our catalogue of add-ons,** like Credit Hound Express for example, so you can customise your business process and truly optimise how Sage 50 Accounts works for you.
