Thrive as a global business

React more quickly to changing customer demands while maintaining control

With Enterprise Management you can:

- Achieve faster customer response times by running an agile, connected organization across multiple companies, business units and sites
- Maintain one system of record across globally distributed operations for accurate planning and forecasting
- Maintain local compliance with multi-currency, multi-ledger, multi-legislation and multi-language functionalities
- Streamline international transactions and invoicing, adhering to local banking formats, and consolidate foreign operations for simpler financial reporting
- Automate tax declarative processes, from translations to electronic submissions, and adhere to local requirements

Gain faster business insight

Increase customer satisfaction and remove administrative burden with faster, more flexible and more efficient processes powered by data

With Enterprise Management you can:

- Generate insight with data across multiple machines and sources and create consistent analytical models
- Give your team personalized information with access to live dashboards customized for specific business roles to monitor performance and alert them to abnormalities in the business
- Create customizable scoreboards for individual business roles; navigate up and down the audit trail to manage risks
- Distribute consistent reports across the organization, trigger alerts and workflows based on KPIs; enable collaboration to make better decisions
- Stay compliant with local data regulations such as the General Data Protection Regulation (GDPR)

Tailor your experience

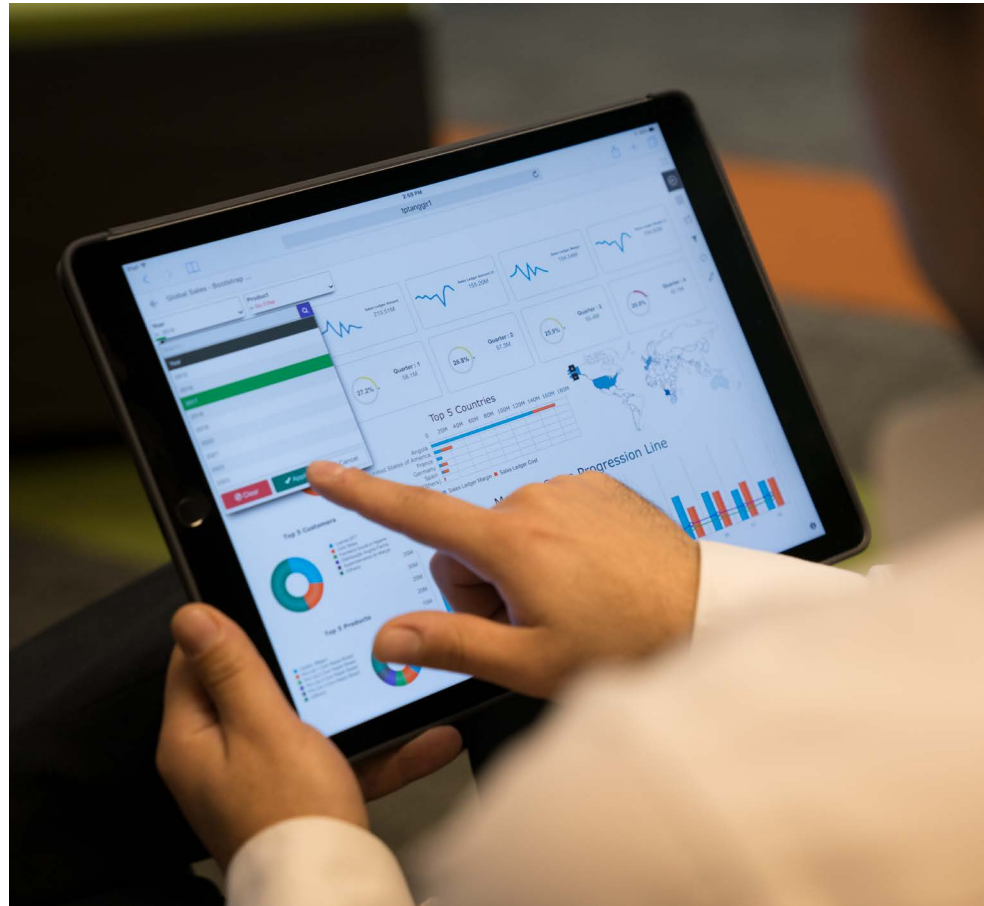

Enable your team to work smarter and more efficiently with a modular and flexible system that will grow

With Enterprise Management you can:

- Configure your solution to support your industry-specific processes, from manufacturing and distribution to business services
- Create personalized user experiences for your team using powerful configuration capabilities
- Build a custom solution by accessing specialty applications built by Sage's vibrant partner ecosystem and develop new applications using industry-leading development tools
- Choose to run your solution in the cloud, as a Sage service, on your partner's data center or on your own infrastructure

Intuitively manage operations

Stay competitive in the face of growing complexity using an end-to-end solution to manage your operations and people

With Enterprise Management you can:

- Streamline core processes to accelerate the management of business across procurement, manufacturing, inventory, sales, customer service and financials
- Reduce business complexity using easy-to-use business applications that are tailored to your specific business needs
- Drive continuous improvements with quality management non-conformance and non compliance capabilities allowing you to identify issues, reduce costs and improve customer experiences
- Improve cost management and gain better control of project profitability
- Quickly adapt procedures to changing regulations and compliance requirements
- Stay productive from anywhere with intuitive mobile applications allowing you to check inventory, take customer orders, approve purchases and view key performance indicators on the go

Generate industry leading ROI

Achieve 177% ROI with a 5 month payback period¹

With Enterprise Management you can:

- Reduce administrative burdens by automating key accounting and finance tasks such as processing orders, invoicing, and managing journals
- Enable faster production cycles and faster response times, while efficiently managing the supply chain
- Spend more time focusing on new business services and driving out inefficiencies
- Partner confidently with Sage, a champion of business builders for over 30 years that now serves over 3 million customers on dozens of products across 25 countries
- Operate efficiently with a global partner network and services team offering world-class support

¹ Forrester 2016 total economic impact analysis of Enterprise Management points to risk-adjusted benefits of \$1,722,180 over three years versus implementation and operating costs of \$620,870, equating to a net present value (NPV) of \$1,101,310 for a Sage cloud subscription. The risk-adjusted ROI was a very favorable 177%, and the payback period was a quick five months on average for Enterprise Management customers participating in the research.

“The proof is in the numbers. Empire has grown over 300% since implementing Enterprise Management. We saw immediate performance increases, including a 30% reduction in productive labor and consolidation of an entire warehouse facility footprint, and annual savings of around \$400,000.”
